GOOD PRICE

Realized on Some Leaf on Loose Floor.

Hogshead Receipts and Sales Again Large, and Shipments Are Now Heavy.

Our hogshead receipts and sales this week were again heavy. The market calls for no special comment, being generally steady and unchanged at last week's quotations. While receipts are large, shipments are also heavy and there is but little accumulation of stock.

R. M. Woodriddle & Co. sold about 200,000 pounds on the loose floor. The great bulk of the weed offered here at this time is of the commoner varieties, some of which is damaged. Prices consequently appear low. Tobacco, however, that has been carefully handled and is in good order always commands full price on the Hopkinsville market. R. M. Woodriddle & Co. sold some leaf at \$7.80. Quotations on the loose market are as follows: Trash, \$2 to \$2.50; lugs, \$2.50 to \$3.25; leaf, \$3.50 to \$7.80. The loose sales will be continued by Woodriddle & Co. as long as the farmers bring in the weed.

DR. CAMPBELL WEDS

And Mr. Phil Gaither to Marry Next Tuesday.

Dr. Geo. N. Campbell, formerly of this place, and Miss Phoebe Lewis, of Philadelphia, were married in the latter city Wednesday. After spending the honeymoon on the Atlantic coast they will return to Philadelphia, where they will make their future home.

Gaither-Steels.

Mr. Phil Gaither, formerly of Hopkinsville, but now of Fort Worth, Texas, and Miss Ora Steels, of Ft. Worth, will be married next Tuesday. The bride-to-be was originally from Livingston county, Ky., but made her home in Paducah about two years prior to going to Texas.

CONSUMPTIVE PATIENT

Dies at the Asylum After Long Illness.

Miss Sallie E. Perry, an asylum patient from Simpson county, died at the institution Tuesday, of consumption. She was 40 years old and had been in the asylum several years. The body was shipped to Franklin for interment, Wednesday.

Lobby Made Smaller.

Postmaster Breathitt has had some changes made in the postoffice. Two sections of lock-boxes, in disuse since free delivery was established, have been taken out and the rear partition moved forward about ten feet. It adds considerably more room to the working department inside and leaves the lobby large enough. The Government has renewed the lease for another term of five years, for the building, which is owned by the John Mayson Company.

Wheat Again Suffers.

Two hard rains Tuesday and Wednesday have put a stop to wheat threshing for several days to come. Many of the large crops were threshed the first of the week, but the small crops that have to wait on the threshers will be fortunate if they are saved without being seriously damaged.

Menser-Donnell.

Mr. John O. Menser and Miss Tesie Donnell, both of the Macedonia country, were united in marriage Tuesday.

Real enjoyment is had when reading that clever magazine, The Smart Set.

STRIKE SETTLED.

Details to be Arranged by Board of Arbitration.

The 74,000 Men Who Went Out Are To Get Their Old Places.

Chicago, July 21.—The strike inaugurated ten days ago by the Butchers' and Meatcutters' Union was amicably settled at a conference in Chicago last night, brought about by request of officials of the Allied Trades. The whole difficulty will be submitted to a board of arbitration, and pending the award the strikers are to be given their old positions as rapidly as possible, every man to be reinstated within forty-five days. Strike leaders in all affected cities have been notified and normal conditions are expected to-morrow morning.

Results of the Strike.

Total men made idle in all cities, 74,000.

Average wages of all idle men, \$3.50 per day.

Total losses in wages per day, \$259,000.

Total losses in wages for seven working days, \$1,813,000.

Loss to packers in business and through destruction of meats and by-products (estimated), \$7,000,000.

Loss to railroads in reduced traffic, \$300,000.

Loss to the public, an average of five cents per pound in the price of meat, which will probably continue in force for several months.

VERY CLOSE CALL.

Invalid Wife Rescued From a Burning By Her Husband.

The large frame dwelling house of Mr. Bayless E. Parker, near Massington, was totally consumed by fire, together with its entire contents, on the morning of the 14th instant. The fire originated from a fuse. Mr. and Mrs. Parker were the only occupants of the building. The latter has been an invalid for about two years and it was with great difficulty that Mr. Parker succeeded in getting his wife out of the house before the mass of flames collapsed. One of the rooms contained a year's supply of flour, meat and lard. The loss is about \$1,500. There was no insurance.

SALARY SCHEDULE

For Rural Mail Carriers Has Been Completed.

The new salary schedule for rural mail carriers has been completed. The new schedule applies from July 1. The last Congress raised the maximum salary from \$600 to \$720 a year. It was found that the maximum route was 24 miles long, and to carriers on routes of this length, numbering about 12,000 the maximum salary will be paid. The salaries of carriers on routes shorter than the maximum was fixed by deducting \$18 for each mile less than 24. The net result has been slightly over two-thirds of the whole force of 24,500 rural carriers have received increases of \$100 a year in their salaries. The remaining carriers have received less than this amount.

CHOLERA INFANTUM

Causes Death of Two Children in North Christian.

The six-months-old child of John Wilson, who lives on Trade Water, died last Friday of cholera infantum. A child of George Cost, of near Crofton, died Saturday night of the same disease.

Died in St. Louis.

John Nourse, col., who moved from this place to St. Louis about 2 years ago, died in that city Monday. The body was brought here and interred Tuesday.

LOST A LIMB.

Serious Accident to Young Man of This City.

Walter Maddox, of this city, was the victim of a serious accident at Springfield, Tenn., Wednesday. Young Maddox was a brakeman on the L. & N., local, between Hopkinsville and Nashville, and fell under the cars, one leg being crushed so badly that amputation was necessary.

He had been employed here in a tobacco factory until the first of the week, when he secured employment as brakeman. He made his first trip to Nashville Tuesday and was on the return trip when the accident occurred.

A Correction.

An error was made in noting the death of Mr. Grey Lewis in Tuesday's paper. Mrs. C. B. Alexander was not Mr. Lewis' mother, but his aunt, with whom he lived much of the time during his childhood. She was a sister of his father.

ONE KILLED

And Two Others Badly Shocked By Lightning.

The Result of An Electrical Storm Which Passed Over Country East of Pembroke.

During the rain storm Tuesday afternoon Eulus Minor, a young farmer who lived three miles East of Pembroke, was killed by lightning. Mr. Minor and his elder brother took refuge under a tree which was struck by lightning. The current passed down a grape vine, killing young Minor instantly. The brother was considerably shocked, but not seriously hurt. The Minor family moved to Christian county some years ago from Tennessee. Eulus Minor was about 24 years old, unmarried, and was the main support of a widowed mother.

During the same storm the wife of Ed Bell, col., of near Bell's Chapel, was badly shocked by lightning, but it is thought that she will recover.

W. S. WILSON

Dies in This City. After a Brief Illness.

Mr. William Shipp Wilson, stepson of the late Dr. W. H. Hopson, died Wednesday morning at the Hopson residence, after an illness of several days. He was 50 years old and was for a number of years engaged in the tobacco business at various points. Funeral services were held at Grace Episcopal church yesterday afternoon and the interment took place in Hopewell Cemetery.

ONLY TWO FAILED.

Out of Fourteen Applicants a Dozen Were Successful.

The papers in the examination of white teachers for certificates, held last Friday and Saturday, have been graded. There were fourteen applicants and all but two passed. One first-class certificate was issued, seven second-class and four third-class. The examination of colored applicants will be held today and tomorrow.

Embry Allen Injured.

Cynthiana, Ky., July 20.—State Senator J. Embry Allen, of the Second Kentucky regiment, of Lexington, Ky., while camping with Cynthiana friends at Blue Lick Springs, was severely injured by a fall while stepping into a skiff on Licking river. Three ribs were broken and he sustained other injuries.

Judge Parker is getting along swimmingly in his race so far.

If the Hays decision holds good, it will bring to the schools of Christian county a per capita of about 75 or 80 cents.

Senator Gorman will decline the Chairmanship of the Democratic National Committee and Taggart is still the most probable selection.

The first issue of Marion's new paper, the Record, published by James E. Chetenden, appeared last week. It is Republican in politics.

Senator Gorman has declined the chairmanship of the National Committee. The election will be made next Tuesday.

Editor Geo. V. Frippert, Gov. Beckham's brother-in-law, is a candidate for appointment to the vacancy caused by the death of County Judge Haskins, of Daviess county. A petition is also being circulated for the appointment of Mr. Yewell Haskins, to succeed his father.

"The fearful kissing bug," which is usually found about lawn swings and settees, has reappeared at Owensboro, and one man has already been poisoned. The Owensboro Inquirer, whose editor writes like a scientific student of oecula view and its dangers, thus describes the new pest:

"The so-called kissing bug is more properly called the harvest beetle. It is a black beetle about three-fourths of an inch long, with slightly fluted wing covers, which shine like brocade satin. The color underneath varies from a very bright yellow to a light brown. The bug does not bite, but on being touched or even disturbed it exudes a small drop of an oily, peculiar and ill smelling liquid from its mouth. As a little girl said who had been attacked by one of them, 'it tastes like fire, only hotter.'"

The bugs are very much worse some years than others. Five or six years ago they overspread the country and a number of deaths followed their attacks, the irritation resulting in skin poisoning. Nothing has been heard from them for about three years, but they are coming to the front again."

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Halls Catarrh Cure. Send for circulars, free.

The School Book Commission of Tennessee has adopted a list of books for the next five years. Westworth's Arithmetic and Geometry, Hyde's Language Lessons, Lee's History of the U. S., and Worcester's Dictionary are among the books adopted. Lee's Readers, Farr & McMurtry's geographies and Hunt's spellers are some of the new books put in the price range higher than the Kentucky schedule on most items. None of the Kentucky books are used in Tennessee.

Judge Parker went on record seven years ago against trusts by a decision in a test case.

"The law assumes," he said, "an attempt by a combination of persons who get together to fix prices so that the community is made to pay more than they otherwise would pay, is detrimental to trade and to the public interests."

The seizure of British ships in the Red Sea, by Russian warships, to search for Japanese mail, is causing the English lion to growl. It is believed serious complications have arisen, that can only be straightened out by the most delicate diplomatic work. If England gets into the game, France will hardly stay out.

The grand lodge of Elks at Cincinnati elected W. J. O'Brien, of Baltimore. Exalted Ruler. The books of the Grand Lodge would tend to be in bad shape and charges of extravagance were made against the retiring grand officers. The parade was the greatest in the history of the order.

The architect, who is to build the State capital, first decided that the original plan of incorporating the present new wing in the new capital would not be practicable. Now he says the present grounds are too small and a new site should be purchased. Wouldn't it be cheaper to employ a new architect?

The surviving officials of Louisville should be careful and not go near the water. Fishing and bathing have both proven to be fraught with great danger.

Miss Walker, a Mississippi girl who was summing at Montpelier, fell over a precipice sixty feet and was killed.

Bryan's machine for use in his senatorial campaign is all ready and only needs to be set in motion. HAYS CONSTRUES

School Law in Way to Get \$500,000 More Money.

Most Important Decision Affecting State Revenues by Attorney General.

Frankfort, Ky., July 19.—On a request from Superintendent of Public Instruction Fugard, Attorney General Hays today rendered an official opinion construing sections 5 and 6 of Section 4,370, Kentucky Statutes, in which he holds that the common school system is entitled to \$599 of the whole State tax, and that the common school fund is entitled to have its proportion of the funds derived from the insurance department set aside to this department.

He holds that for the year ending June 30, 1904, there should have been placed to the credit of the school fund \$95,000, this being its proportionate part of the \$215,000 turned into the treasury from this source. He estimates that between \$110,000 and \$115,000 will be due this fund from the money turned into the Treasury July, 1905.

He further holds that the school fund is entitled to the proportionate part of the funds turned into the Treasury since the law has been in force since 1898, which will amount to about \$500,000.

Heretofore the funds from the insurance department have been covered into the Treasury and none of them devoted to the school fund.

FORCED TO SPEAK RUDELY.

Young Man Nettled Beyond Endurance by Girl's Criticism.

There is a young man in town who is newly come out of the West, and if you ask a certain Rhode Island-avenue girl about him you will be very likely to hear a most disparaging account of his manners. It happened this way: Last summer the Rhode Island-avenue girl went out to the Western town where this young man was born and brought up to visit friends. Every body was exceedingly cordial to her, and possibly this gave her an undue idea of her own importance.

At any rate, she took it upon herself to criticize the west and Western ways in a fashion that is far from pleasant to Westerners, though goodness knows, they've heard it long enough to be pretty well hardened. The young man I am telling you about took her driving one evening, and it happened that she was in an unusually critical mood. She made fun of the town and people and pointed out where in they were lacking in the essentials of civilization till the young man felt that her remarks were getting on his nerve.

"Things are so different here from what they are in Washington," she said. "Why, at home really nice girls never go driving in the evening with men."

"The young man's patience snapped off short. He looked at the girl with a smile.

"It's the same here," he said coolly. "That's why we fellows have to take girls from out of town."

FIRST COMPLICATION.

Believed to Have Arrived Between Russia and England.

Berlin, July 19.—England has informed Germany of the dispatch of an English fleet of eighteen warships to Alexandria with the intention of checking Russian illegalities in the Red Sea. It is expected that the demonstration will cause Russia to subside meekly.

The general feeling here is that the first European complication with regard to the war in the far East has arrived.

Sound Advice on Mining Investments.

The Consolidated Alpine.

A pamphlet issued by Walter S. Logan, an experienced investing attorney, on "The Art of Investing," is a work that should be in the hands of every man, whether he is investing for income or speculation.

We have taken the liberty of quoting the most salient points in the little book.

Mr. Logan says: "There are two classes of investments: First, The investment made to secure a safe and assured income without either risking or seeking to increase the principal. Second, The investment whose primary object is to increase the principal and as to which the securing of present income is a secondary—or at least not the controlling—consideration.

Interest rates are steadily declining. When I first commenced practicing law in New York City a bonus was often paid by the borrower on a well-secured seven per cent. mortgage. Now a premium is paid by the lender on a four per cent mortgage with no better security. My office is collecting for clients coupons on railroad bonds issued twenty-five and thirty years ago, and carrying six and seven per cent interest. Now, as the old bonds are paid off, we are glad to

ly on interest money is certainly not encouraging.

"Mortgages can be had in limited quantities which will insure four per cent, with good security, for not to exceed five years. Bonds yielding three per cent, for twenty years are to be had, but it would be difficult to find to-day a fifty-year investment in the nature of a loan with an adequate margin of security against future contingencies which would yield more than two per cent.

"If a four per cent. five year mortgage, or a three per cent. twenty year bond is taken, it is doubtful if the five-year investment can, when it becomes due, be re-invested to yield three per cent, or the twenty-year investment to yield more than one and one half per cent.

"There are three reasons for this evolution in interest rates that is going on:

"1. The aggregation of accumulated capital is constantly increasing as the world and the people in it get richer. There is more money to lend and competition pulls down the price.

"2. There are more people seeking to live without self supporting labor on the income of invested capital—more who wish to confine their

HOWARD BRAME,

Popular Young Farmer, Will Come to Town.

Mr. Howard Brame has bought the livery stable heretofore owned by Goley & Brame, at the corner of Seventh and Virginia streets. His brother, Lem Brame, the late part owner, will remain in the management of the stable until November, when Mr. Brame will himself move to the city from his home in the country. The new proprietor is a stirring and energetic young man, popular and enterprising and is widely acquainted over the county. He has an ad. in today's Kentuckian and it goes without the saying that he will do a big share of the feed, livery and hack service, to which branches he will confine his business.

His Leg Broken.

Eddyville, Ky., July 20.—The Hon. W. W. Tabb, Hardin county's representative in the Legislature, who has been acting in the capacity of foreman for Joseph Williams & Co., of Louisville, in the construction of the new cellhouse at the branch penitentiary, broke his leg in two places today while measuring a ditch for a drainage pipe line. The earth caved in, lodging some heavy stones against him.

After fifteen years imprisonment, convicted of killing her husband by arsenical poison, Mrs. Florence Maybrick, a member of a prominent Southern family, has been released from British custody, and is now journeying to Rouen, France, where she will reside. The last months of her servitude were spent in the convent of the sisterhood of Epiphany, at Truro, Cornwall, England.

Two-Headed Girl Baby.

Cairo, Ill., July 21.—A two-headed girl baby has been born in Cairo to a negro woman named Shae. It died shortly after birth. The heads were well formed and rested on the shoulders at about the same angle. The features were perfect. The body was fully matured. The child had only one set of lungs, but it possessed two independent necks each with a windpipe furnishing air for one lung.

"THE ETERNAL FEMINE." In Whatever Business She May Launch Sex Peculiarities Cling Ever to Her.

"Woman may enter the professions, but in most cases her femininity will stick through somewhere," remarked a lawyer to a fellow member of the profession over the cigar at an uptown club the other night, relates the New York Tribune. "The oddity of a woman practicing law never struck me so forcibly as the other day, when I had a little business with one. This particular woman was not one of the kind who are masculine and cold. Somehow she seemed out of place in her little office, surrounded by stacks of papers and file cases. You felt that she should have been the mistress of a sunny home with plenty of fresh air about it and children romping in the yard. But this was the incident which emphasized the oddity I mentioned. She arose to leave her office to attend to some legal business downtown. Naturally, I assisted her with her coat. Then she turned to her office clerk, a young woman, and said: 'Is the chiffon bow at the back of my neck all right? I must have another one soon.' Then she went out full of the business on which she was bent."

NECK AND NECK

Between Cairo and Paducah for First Place.

Hopkinsville Has Lost Heavily in All Recent Games.

	P.	W.	L.	Pc.
Cairo	68	44	24	647
Paducah	65	42	23	646
Clarksville	67	34	33	507
Hopkinsville	69	29	40	420
Vincennes	66	26	40	393
Henderson	69	27	42	391

The above table shows the standing of K. L. T. clubs up to yesterday morning. Paducah is hot after first place again, while the contest for the tail end is almost as fierce between Vincennes and Henderson.

Wednesday Henderson and Cairo broke even on a double header at Cairo. Cairo lost the first game by 4 to 2 and won the second by 4 to 3. At Paducah, Paducah beat Vincennes 6 to 2.

Hopkinsville and Clarksville began a series of three games here Tuesday and the first two were easy victories for the visitors. They came in from Cairo at 4 p. m. and it was 5:10 before the game was called. The locals were at the park at 3:45 and ready to play, but umpire Popp did not appear until the visitors arrived. The weather was threatening, but at 3:45 it was not raining, though there was a hard shower about 4 o'clock. The locals claimed a forfeited game, but Clarksville, reported that Farnbacher had promised to wire the time they would arrive. Their man Doll had a fight with Shuster, the umpire, at Cairo, and it took some time to get him out of the court complications. The game began after Hopkinsville had entered a formal protest and was a listless affair all through, the visitors making score after score until the game closed 9 to 2. But few people were present. Morris and Collins for Hopkinsville and Doll and Pettit for Clarksville, were the batteries.

The game Wednesday was played under favorable auspices, with the weather all right and a big crowd on hand.

In the first inning, Clarksville put two grounds out through center field and a series of errors enabled the visitors to get 4 scores in about four minutes. After that a fair game was played for several innings, but Hopkinsville made only one score, while Clarksville made another "killing" of three scores in the seventh inning. The locals barely escaped to avoid the score being 7 to 1. Ferrell pitched and Collins was behind the bat until disabled, when Moore relieved him. Morris going to first base and Peipho replacing Moore at short stop. Harris and Pettit made up Clarksville's battery.

The game yesterday was the last of the series here, the locals going to Clarksville to play to day and tomorrow. They will return next week for three games with Vincennes beginning Tuesday and three with Henderson beginning Friday.

On the Fly.

Shuster is still umpiring at Cairo.

The grass in the outfield again needs mowing.

Vincennes is after the Browns. Hopkinsville's fight now is to hold fourth place.

One of the largest crowds of the season was on hand Wednesday, but it did not encourage the boys to win.

The Clarksville team did not get in Tuesday until nearly five o'clock, but they gave the locals one of the worst defeats of the season.

Six errors for Hopkinsville Wednesday and 1 for Clarksville Wednesday, tells how the locals failed to please the fans. Hits were 9 to 10.

Hon. William Jennings Bryan attended the game at Vincennes Monday. Mr. Bryan addressed the spectators and the home team was so encouraged by his eloquence that it won the game.

Hopkinsville had two men hurt in Wednesday's game. Collins knocked off a finger nail in the sixth inning and Moore relieved him as catcher. Brady hurt a finger in the seventh, but played out.

the game. Morris and Peipho are still lame from injuries and Marre has two sore fingers, one on each hand. The boys are not in physical condition to play first class ball.

About 100 Clarksville fans blew in at noon yesterday, on a T. C. special armed with megaphones, to root for the Clarksville team.

Umpire Popp is a great improvement over Shuster. His decisions here have been seemingly fair and impartial. But the Clarksville team as long as they are winning are not called upon to do much kicking. If the locals pull themselves together and begin to play ball again, like they are capable of doing, we can see how gracefully the Clarksville wellwishes can accept defeat.

CAMPAIGN ISSUES.

Democratic Political Text-Book Will Be Turned Over to National Committee.

Washington, July 19.—Imperialism, the tariff and the trusts are the subjects most exhaustively treated in the Democratic campaign book, which Chairman Cowherd, of the Democratic National Committee, has just completed, and the manuscript of which will be turned over to the Democratic National Committee as soon as that body organizes, July 26.

The contents of the book are as yet sacredly guarded, because certain chapters are lacking, notably the speeches and letters of acceptance of Judge Parker and Senator Davis. When these have been provided, the National Committee will look after the printing of the volume which is to serve as a text-book to active Democratic partisans.

The most striking feature of the text-book is the evident purpose to make the personality of President Roosevelt one of the issues of the coming campaign. Speeches by Congressman Kitchen and others, attacking the chief executive, are given important positions in the book.

It is said that the currency question is entirely ignored, but it is likely that the party managers will insist on some formal recognition of Judge Parker's position in the matter.

RUSSIAN LOSS 2,900.

Czar's Troops Suffer Heavily in The Fighting at Motien Pass.

Gen. Kuroki's Headquarters, via Fusan, July 18.—More Russian troops were engaged in yesterday's battle at Motien Pass than in any previous engagements. There were probably double the number of those which took part in the fight at the Yalu river, while opposed to them were only one brigade and one battalion of the Japanese forces. The Russian loss is estimated at 2,000. The burial of the dead continues. The Japanese casualties aggregated 300.

The engagement has conspicuously demonstrated the wonderful efficiency of the Japanese infantry. They proved incomparably the better marksmen, with more initiative, and they outthought and outgeneralized the Russians on every point.

Lexington Lawyer Cannot Practice Before Fayette Courts.

Lexington, Ky., July 19.—The disbarment proceedings against Attorney S. M. Tudor were begun before Judge Parker in the Circuit Court yesterday morning and lasted through the entire day. Mr. Tudor was charged with malpractice as an attorney at the Fayette bar, and was accused of accepting a fee from both sides of a case which was recently tried in a magistrate's court.

After hearing all the evidence on both sides of the case Judge Parker handed down a decision disbarring Tudor from further practice in the courts of the Commonwealth.

re-invest the money in good three per cent. bonds. Five per cent. government, state and municipal bonds, could, at the period I am speaking of, often be bought at a discount. Now three per cent. municipal bonds and two per cent. United States bonds command a premium.

"The lowering of the interest rate is still going rapidly on. At times there is a tight money squeeze and rates go up, but taking it year by year, the rate is steadily going down. In ten years from now the prevailing rate for good securities is quite as likely to be below as above two per cent. and Governments may come to sell on a basis as low as one per cent.

"On the other hand, it is, in my judgment, a good time to invest in the thing itself—property of any kind of permanent intrinsic value—when the investment is intelligently and conservatively made.

GUTHRIE FAIR THIS WEEK

Opens Under Favorable Auspices and Great Show Given.

The Guthrie fair opened Tuesday under favorable auspices. The attendance has been large and increasing from day to day. The racks are well filled and the special attractions put one in mind of Barnum's circus. The show is certainly great and the promises of the management are being fulfilled. Those who fail to attend will miss the best show ever given in this section of the state. Kemp's Wild West, The Fire Flying Baldwins and twenty other interesting acts are given daily. The night show is also attracting large crowds.

Carrie Nation Said to Have Been Knocked Down at Guthrie.

Clarksville, Tenn., July 20.—Carrie Nation, who is attending the annual fair now in progress at Guthrie, Ky., has been up to her old tricks. Yesterday afternoon in the grand stand on the fair grounds she walked up to a young man named John Williams, from Trenton, Ky., and slapped a cigarette from his mouth. He warned her not to repeat the act, but she did not heed the warning, again knocking the cigarette from Williams' mouth, whereupon he is said to have knocked her down. Mrs. Nation was not hurt.

AN INDIAN TALISMAN

HOW THE REDSKINS VIEWED THE TELEGRAPH LINES.

They Credited the "Talking Wire" with Talismanic Power and Looked Upon Official Messages with Considerable Awe.

When the first telegraph line was run through New Mexico and Arizona, sometime in the seventies, great curiosity was awakened among the Indians concerning its purpose. They were utterly at a loss to understand why bare poles should be planted at regular intervals across the country, and wire stretched upon them. They reasoned among themselves that as there was no practical purpose apparent, the object was to evoke some supernatural power, and for a time they watched the line with much apprehension.

Eventually a trusted interpreter informed them that the wire possessed the quality of carrying the white man's words, and was put up on poles simply to be out of the way. The explanation scarcely satisfied them, but they grew less apprehensive as time passed, and no evil effects were developed that could be traced to the wire. Occasionally when a change occurred in the temperature of the air, and the wire in consequence sang like an Eolian harp in the changing breeze, they nodded their heads knowingly at each other, and listened attentively to the "talking wire" engaged in carrying the white man's words.

BRUGHT AN OLD TELEGRAPH ENVELOPE.

words taken from the "talking wire" were "medicine" of wonderful talismanic power.

A couple of years later an officer with a detachment of soldiers, on his way from an official visit to the Mogul villages, in western Arizona, was visited in his camp late in the afternoon, by two Navajo warriors, bringing with them an Apache prisoner whom they had captured while lurking about their herds then grazing near by. The Navajos charged their prisoner with an intent to steal their horses, and addressing the officer through an interpreter, informed him that they would have killed the Apache on the spot but for the fact that he had exhibited the paper bag containing words from the "talking wire" intended for a white chief whom he was seeking.

The Apache promptly produced an old, once-used, weather-stained envelope that had been clumsily fastened together again, and handed it to the officer. It bore an official address and contained the rough, penciled draft of an official communication that had evidently been thrown away after a fair copy had been made. When the officer opened the envelope and discovered the deception he called quickly to his soldiers standing near by, and directed them to place the Apache under guard, knowing that the Navajos would attempt to kill him the moment they discovered his duplicity.

In the meanwhile the prisoner stood a little apart from his captors, holding his horse by a buckskin lariat, and glancing furtively about him like a captive wild beast. As the soldiers approached he seemed to comprehend that his paper bag had proved to be "bad medicine," and suddenly springing upon the back of his horse, he struck the animal a severe blow with the rawhide "quirt" that hung at his wrist, and dashed away from the camp. The Navajos instantly discharged several arrows at the fugitive without effect, and then hastily mounting galloped after him in hot dispute.

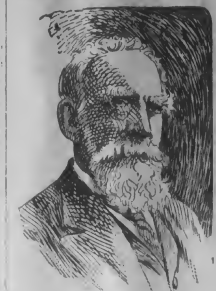

A couple of hours later they again appeared, riding slowly into camp. They had been unable to overtake the Apache, and were on their way back to resume the care of their herds. They had come by way of the camp to ask for a little tobacco, and to exploit the great courage they had displayed in seizing a messenger carrying a paper bag containing words from the "talking wire."

LORD STRATHCONA

SCOTCH LAD WHO ROSE FROM POVERTY TO PEERAGE.

Pays Affectionate Tribute to His Mother—Lays Down Three Rules for Success: Honesty, Frugality, Perseverance.

Scotland is noted for her sturdy and successful sons. Carnegie, in the United States, and Lord Strathcona, in Canada, stand out with striking prominence and similar experiences. Both were of humble birth, and knew the privations of poverty. Both began at the bottom of the ladder, and by hard, persistent, faithful effort climbed up to position of wealth and influence. Both are plain, unassuming men, and love to remember and talk of their humble beginnings and the friends of their boyhood. Both revere the memories of their mothers. Lord Strathcona attributes his success in life to the influence of his mother upon his life.

LORD STRATHCONA.

on his life. Of her he says: "When I was a boy my mother taught me to be honest and save my money. She was one of the best women that ever lived. She made me work, which was another good thing. Every mother should teach her children to be honest and work and save their money. When I was earning only 50 cents a day I saved half of it. No man can succeed in life if he spends all he makes. Frugality is a necessity in everyone's life. Then I prepared myself for my work. Every man should prepare himself for his work. Prepare as a word I like. I wish every boy could understand the necessity of preparing himself for his position. Mr. Carnegie, when he was a common blacksmith, prepared himself; he worked hard; he did his best. To-day he is a very rich man. I have no friend that I think more of than Mr. Carnegie."

"I should like to tell every young man starting out in life the necessity of preparing himself for his work. Then he must be honest and save his money. The great trouble with the people to-day is they all want to be rich without first having been poor. I was very poor when I began life as a boy, very poor."

The subject of this sketch started in life without any titles, any wealth, any position, any friends, except his mother and the few humble folk that were neighbors to him at Morayshire, Scotland. In those days he was known as plain Donald A. Smith, and as such he attended the public schools of Scotland, and when he was not studying he was hard at work earning a livelihood. At 17 he secured a place with the Hudson Bay company, and was sent to Labrador. He began in the most humble position, worked hard, endured every privation, and step by step rose in the employ of the company, until he became head of the post. At that time his eyesight failed, and he was threatened with blindness. Winter had set in. To get to Montreal, 500 miles away seemed impossible. But his indomitable will took him through a successful operation and he was ready to return to his post, the winter was so far advanced that to retrace his steps and his service to the Hudson Bay company was rapid.

To-day Donald A. Smith is Lord Strathcona, lord high commissioner of Canada, knight of St. Michael and St. George. He is the largest land owner in the world, possessing millions of acres of land in minerals and furs in the great northwest; he has vast estates in Scotland, and he owns the controlling interest in the Canadian Pacific railroad. But wealth and title and position have not spoiled him. When he had suppressed the first rebellion under commission by Queen Victoria, he was honored by her majesty for this service and his services to the empire. He was a member of parliament by being knighted under the title of Sir Donald A. Smith, knight of the order of St. Michael and St. George. This was in 1886, after he had conquered the Canadian Pacific. In 1897 for further successes Sir Donald was elevated to the peerage.

The ten acres of ground on which the magnificent buildings of the Royal Victoria hospital, at Montreal, stand were donated by Lord Strathcona, and in addition he gave \$1,000,000 in cash, and the philanthropic and benevolent contributions of Lord Strathcona are too numerous to mention.

Bad Blood Is The Enemy of Good Health

It is no more reasonable to expect to get good health from bad blood than it is to expect to get a good crop out of bad soil. Bad blood is and always must be the enemy of good health. The several organs of the body are nourished by blood. If the blood is bad, that is to say, impure, or if it is deficient in red corpuscles, particularly known as "poor" blood, the vital organs of the body must be weakened.

In general the impurity of the blood is marked by surface eruptions, such as boils, pimples, eczema, tetter, scalding sores, or erysipelas.

Dr. Pierce's Golden Medical Discovery cures disfiguring eruptions, heals scrofulous sores, and cures other results of impure blood, because it cleanses the blood of the impurities which cause disease. It acts directly on the blood-making glands, increasing the quantity and improving the quality of the blood.

"I write this note for the benefit of any who may be suffering," says Mr. John T. Walk, of Muldoon, Texas. "I have received a perfect cure. Had chronic sore legs for four years, and went to see two doctors, but they failed to do me any good. I wrote to you for advice, and you told me to take Dr. Pierce's Golden Medical Discovery and use his All-Healing Salve. I did so, and after using five bottles of 'Golden Medical Discovery' and six boxes of the 'Salve' I was cured. I will recommend your medicines to all my friends, and will advise any who are suffering from any chronic disease to write to Dr. Pierce, as he will kindly give advice freely as he did to me."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and do not want.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to cover expense of mailing only. Send twenty-one one-cent stamps for the book in paper covers; or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

TRAGIC DEATH

Of Another Prominent Official of Louisville Wednesday.

Circuit Judge Upton W. Muir

Drowned While Surf Bathing In the Ocean.

Cape May, N. J., July 20.—Judge Upton W. Muir, of Louisville, was drowned here today at noon, while surf bathing, in water only knee deep. His body was recovered floating face downward when found.

Upton W. Muir was born in Louisville, December 20, 1863. He was an active youth and attended Prof. Chenault's school until going to the University of Virginia, where he graduated from the College of Liberal Arts in 1887. In 1888 he was given the degree of Bachelor of Laws, and came to Louisville at once to engage in the practice of law with his distinguished father, Judge P. B. Muir, the firm being P. B. & Upton Muir.

The firm continued in existence until the spring of 1902, when the son was appointed by Gov. Beckham to fill one of the two judgeships of the Circuit Court, created by an act of Legislature. He was elected to fill the short term at the November election in 1902, and in November 1903, was elected for a term of six years.

Mrs. Muir, who, with her two children, Peter B. and Elizabeth, accompanied Judge Muir to Cape May, was Miss Hebe Harrison, a noted beauty of Charlottesville, Va. Their friendship began during Judge Muir's college days and their marriage followed soon after his graduation.

A successor to Judge Muir will be appointed by Gov. Beckham, but as court is not now in session, it is probable that the appointment will not be made until early in September.

WHAT MAY HAPPEN.

Bryan and Parker to Speak From the Same Platform.

Chicago, July 19.—"It is true that we are to have a meeting in Chicago on August 20," said Mayor Harrison today after reading the Associated Press dispatch from Evansville relative to the opening of the Democratic campaign. "We intend to invite Judge Parker to be one of the speakers. The celebration was originally set for last Saturday, July 16, but we changed the date when we found it would occur before Mr. Parker and Mr. Davis had received their official notifications. We have already invited Mr. Bryan, ex-Senator Towne and Champ Clark. They practically have accepted and we are counting upon Judge Parker."

HE'S A CRACK SHOT

And Has Been Selected as One of Rifle Team.

Jackson Morris, formerly a member of the Kentucky Legislature from Jackson County, and now a law clerk in the office of Commissioner of Internal Revenue Yerkes, is recognized as one of the crack rifle and pistol shots of Washington. Evidence of his prowess in this respect has just been given by the National Guard of the District of Columbia. Mr. Morris has been selected as one of the eight members of the rifle team and one of five members of the revolver team that will represent the National Guard of the district at the annual competition which will take place at Seagirt, N. J., this summer. The crack teams of the United States will participate for prizes under the auspices of the Federal Government.

EXCITING DAY.

Two Casualties Occur at Guthrie Fair Tuesday.

Guthrie, Ky., June 20.—Yesterday was an exciting day at the Guthrie fair.

During the performance of the Wild West show, when they captured the horsethief and hung him, frequent shots were fired at him, and through mistake one or two shells loaded with shot were fired. One shot went through his ear and several lodged in his neck. The injury was slight. The Western woman who was being captured by the Indians was slightly injured. When they attempted to take her from her horse, going at full speed, her foot hung in the stirrup and the man who grabbed her from her horse had to drop her, after pulling off her shoe heel trying to get her loose. When she fell the spring stirrup opened and released her. She was only bruised.

Carrie Nation spoke yesterday, abusing both the Democratic and Republican parties and urging every one to vote the Prohibition ticket.

Monday, Aug. 1, at the Court House door, the T. L. Yonta farm will be sold, and any one wanting a desirable country home, would do well to attend the sale. The farm is well improved and contains 165 acres of good land.

LIKE A SNAKE.

Madisonville Girl Crawls and Thrusts Out Her Tongue.

Was Bitten By a Viper and Has Since Had Horrible Convulsions.

Madisonville, Ky., July 19.—Miss Stella Castle, a pretty girl of 18, bitten by a snake a few days ago, now acts like a reptile. Her case is a most pathetic one.

Miss Castle was out walking last Friday and stepped on a spreading viper, one of the most poisonous of reptiles. The snake bit her on the ankle. The girl returned home and told her parents about the accident, but as the wound gave her no pain, the family delayed calling in a physician until Saturday, when the girl showed violent symptoms.

Sunday afternoon Miss Castle escaped from her room and jumped into a pond near the house. She was rescued as she was sinking for the last time, and removed to the house, where she has been constantly guarded ever since.

Miss Castle has now taken on the ways of a snake. She tries to crawl and at times sticks her tongue from her mouth like a reptile. She is seized with convulsions two or three times a day when she is delirious and attempts to crawl out of bed. At times she is rational and chats with the members of the family and friends who call to see her.

The attending physicians say the case of the young girl is probably hopeless and that she will probably die in one of her convulsions. Miss Castle is one of the most popular girls in Madisonville and attends the high school here.
